Name:

## Complete the graph: Tally marks

-) Mrs. Chloé has 9 blue buckets and 5 red buckets. Complete the following graph using tally marks to represent the number of each bucket.

|  | blue <br> buckets |  |
| :--- | :---: | :--- |
|  | red <br> buckets |  |

- A famous industry in our city has many employees. We have noticed that 18 of them wear blue $t$-shirts inside their overalls and 23 wear yellow $t$-shirts. Using tally marks, represent the number of each category of employees, in relation to their $t$-shirts.

| Ko | blue |
| :---: | :---: | :---: |
| t-shirt |  |

- During my sister's wedding, I noticed 3 glasses of whiskey, 6 glasses of red wine and 10 glasses of champagne in the server's tray. Using tally marks, can you help the server to represent the number of glasses on his tray?

| $Q$ | whiskey |  |
| :---: | :---: | :---: |
| I | red wine |  |
| 0 | champagne |  |

- In mum's fridge, there are 5 bottles of pineapple juice, and 2 bottles of orange juice. Represents the number of bottles of each fruit juice with tally marks.

| $20 y$ | orange juice |  |
| :--- | :--- | :--- |
|  | pineapple juice |  |
