

Name: Class:

Write a multiplication sentence to describe each model

Write multiplication sentences to describe the following models.

1.

___ x ___ = ___

2.

___ x ___ = ___

3.

___ x ___ = ___

4.

___ x ___ = ___

Name: Class:

Write a multiplication sentence to describe each model

Write multiplication sentences to describe the following models.

1.

Firstly, let's count the number of equal groups.

There are 2 equal groups.

Secondly, let's count the number of pentagons in each group

There are 6 pentagons per group.

Thirdly, let's count the total number of pentagons in all.

There are 12 pentagons in all.

Finally, let's write the multiplication sentence.

2 groups of 6 pentagons is 12 pentagons.

So, the multiplication sentence is $2 \times 6 = 12$.

2.

$$\underline{3} \times \underline{7} = \underline{21}$$

3.

$$\underline{4} \times \underline{5} = \underline{20}$$

4.

$$\underline{5} \times \underline{16} = \underline{80}$$
