.....

Name: Class:

Addition word problem: Sums up to 10

In each case solve and answer in the spaces provided.

- Marie's pussy has 2 kittens. Last night it gave birth to 8 other kittens. How many kittens does Marie's pussy have now altogether ?

- 2 kittens
- 8 kittens

→ $2 + 8 = 10$

Marie's pussy has 10 kittens altogether.

- Mr. Patrick has 4 hay mounds in the barn. His wife has just brought 5 more hay mounds from the field for the new horses. How many hay mounds do they have now in all ?

- 4 hay mounds
- 5 hay mounds

→ $4 + 5 = 9$

They now have 9 hay mounds.

- Before it began raining yesterday, Daddy had planted 6 baoba trees. His son planted 1 more after the rains. How many baoba trees did they plant altogether ?

- 6 baoba trees
- 1 baoba tree

→ $6 + 1 = 7$

They planted 7 baoba trees altogether.

- Sir John's hen laid 5 eggs yesterday morning. Today, it has laid some 3 more eggs. How many eggs has Sir John's hen laid in all ?

- 5 eggs yesterday morning
- 3 eggs today

→ $5 + 3 = 8$

Sir John's hen has laid 8 eggs in all.
