

Name: Class:

Related subtraction facts

* Subtraction facts use some numbers but in different order. To find the related subtraction fact, exchange the numbers after the minus sign and the equal to sign.

Example:

Related subtraction facts.

$$12 - 9 = 3$$

$$12 - 3 = 9$$

Use the numbers below to form related subtraction facts.

a. 13, 4, 9

First subtraction fact : _____
Second subtraction fact : _____

e. 30, 27, 3

First subtraction fact : _____
Second subtraction fact : _____

b. 6, 1, 5

First subtraction fact : _____
Second subtraction fact : _____

f. 16, 7, 9

First subtraction fact : _____
Second subtraction fact : _____

c. 15, 8, 7

First subtraction fact : _____
Second subtraction fact : _____

g. 37, 10, 27

First subtraction fact : _____
Second subtraction fact : _____

d. 12, 4, 8

First subtraction fact : _____
Second subtraction fact : _____

h. 24, 12, 12

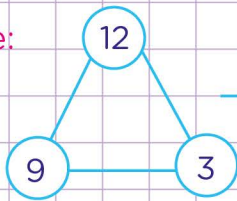

First subtraction fact : _____
Second subtraction fact : _____

Related subtraction facts

* Subtraction facts use some numbers but in different order. To find the related subtraction fact, exchange the numbers after the minus sign and the equal to sign.

Example:

Related subtraction facts.

$$12 - 9 = 3$$

$$12 - 3 = 9$$

Use the numbers below to form related subtraction facts.

a. 13, 4, 9

First subtraction fact : $13 - 4 = 9$

Second subtraction fact : $13 - 9 = 4$

e. 30, 27, 3

First subtraction fact : $30 - 27 = 3$

Second subtraction fact : $30 - 3 = 27$

b. 6, 1, 5

First subtraction fact : $6 - 1 = 5$

Second subtraction fact : $6 - 5 = 1$

f. 16, 7, 9

First subtraction fact : $16 - 7 = 9$

Second subtraction fact : $16 - 9 = 7$

c. 15, 8, 7

First subtraction fact : $15 - 8 = 7$

Second subtraction fact : $15 - 7 = 8$

g. 37, 10, 27

First subtraction fact : $37 - 10 = 27$

Second subtraction fact : $37 - 27 = 10$

d. 12, 4, 8

First subtraction fact : $12 - 4 = 8$

Second subtraction fact : $12 - 8 = 4$

h. 24, 12, 12

First subtraction fact : $24 - 12 = 12$

Second subtraction fact : $24 - 12 = 12$
