Name: Class:

Counting money up to 5 dollar

Calculate the total amount of money given below.

1.

We know that,

Quarter is worth \$0.25 and Dime is worth \$0.10.

Now, let's use this knowledge to add the money.

Sum = one dollar + one dollar + one dollar + quarter + dime.

$$= \$1 + \$1 + \$1 + \$0.25 + \$0.10$$

$$= \$3 + \$0.25 + \$0.10$$

$$= \$3.35$$

So, the total is \$3.35.

2.

\$1.51

3.

\$4

4.

\$2.10

5.

\$4.36
