

Name: Class:

Equal groups division

Describe the following models by completing the sentences.

a.

The model has ___ squares divided into ___ equal groups with ___ squares in each group.

b.

c.

Name: Class:

Equal groups division

Describe the following models by completing the sentences.

a.

The model has ___ squares divided into ___ equal groups with ___ squares in each group.

Let's first of all count the number of equal groups.

You see that, there are 2 equal groups.

then, we count the number of total squares in all the groups.

You see that, there are 8 squares in all.

Finally, let's count the number of squares in each group.

You see that, there are 4 squares in each group.

Therefore, the model has 8 squares divided into 2 equal groups with 4 squares in each group

b.

The model has 24 muffins divided into 4 equal groups with 6 muffins in each group.

c.

The model has 24 ice creams divided into 3 equal groups with 8 ice creams in each group.
