Convert between place values

1. How many thousands make 500 tens?

2. How many ones make 10 tens?

3. How many hundred thousands make 700,000 ones?

4. How many ten thousands make 33,000 hundreds?

5. How many thousands make 90 hundreds?

6. How many hundreds make 11 ten thousands

7. How many hundreds make 20 ten thousands

8. How many thousands make 100 hundreds?

Name: ..... Class: .....

## Convert between place values

1. How many thousands make 500 tens?

$$100 \text{ tens} = 1 \text{ thousand}$$

$$\text{So, } 500 \text{ tens} = \frac{500 \times 1}{100}$$

$$= 5 \text{ thousands.}$$

Therefore, 500 tens make 5 thousands.

3. How many hundred thousands make 700,000 ones?

$$100,000 \text{ ones} = 1 \text{ hundred thousands}$$

$$\text{So, } 700,000 \text{ ones} = \frac{700,000 \times 1}{100,000}$$

$$= 7 \text{ hundred thousands}$$

Therefore, 7 hundred thousands makes 700,000

5. How many thousands make 90 hundreds?

$$10 \text{ hundreds} = 1 \text{ thousand}$$

$$\text{So, } 90 \text{ hundreds} = \frac{90 \times 1}{10}$$

$$= 9 \text{ thousands}$$

Therefore, 9 thousands makes 90 hundreds

7. How many hundreds make 20 ten thousands

$$1 \text{ ten thousand} = 100 \text{ hundreds}$$

$$\text{So, } 20 \text{ ten thousands} = \frac{20 \times 100}{1}$$

$$= 2,000 \text{ hundreds}$$

Therefore, 2,000 hundreds makes 20 ten thousands

2. How many ones make 10 tens?

$$1 \text{ ten} = 10 \text{ ones}$$

$$\text{So, } 10 \text{ tens} = \frac{10 \times 10}{1}$$

$$= 100 \text{ ones}$$

Therefore, 100 ones make 10 tens.

4. How many ten thousands make 33,000 hundreds?

$$100 \text{ hundreds} = 1 \text{ ten thousands}$$

$$\text{So, } 33,000 \text{ hundreds} = \frac{33,000 \times 1}{100}$$

$$= 330 \text{ ten thousands}$$

Therefore, 330 ten thousands makes 33,000 hundreds

6. How many hundreds make 11 ten thousands

$$1 \text{ ten thousand} = 100 \text{ hundreds}$$

$$\text{So, } 11 \text{ ten thousands} = \frac{11 \times 100}{1}$$

$$= 1,100 \text{ hundreds}$$

Therefore, 1,100 hundreds makes 11 ten thousands

8. How many thousands make 100 hundreds?

$$10 \text{ hundreds} = 1 \text{ thousand}$$

$$\text{So, } 100 \text{ hundreds} = \frac{100 \times 1}{10}$$

$$= 10 \text{ thousands}$$

Therefore, 10 thousands makes 100 hundreds
