	Mikk boomo	Mike or booksh more to so num	Mike owns bookshop more than To solve number of	Mike owns a be bookshop with more than Mike number of bookshop with mumber of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this number of bookshop with more than Mike To solve this more than Mike To solve this number of bookshop with more than Mike To solve the Mike	Mike owns a book bookshop with a more than Mike? To solve this property of book hop with a more of book	Mike owns a booksh bookshop with a tot more than Mike? To solve this proble had in the piggy bare.	Mike owns a bookshop bookshop with a total of more than Mike? To solve this problem, a total of more than Mike? To solve this problem, number of books John	Jerry had 8,756 pennies in have now in his piggy bank. To solve this problem, let's had in the piggy bank. 8, 7 5 - 7, 8 6 Mike owns a bookshop wit bookshop with a total of 4 more than Mike? To solve this problem, we number of books John has 4, - 2,	Jerry had 8,756 pennies in his have now in his piggy bank? To solve this problem, let's subhad in the piggy bank. 8,756 - 7,867 Mike owns a bookshop with a bookshop with a total of 4,934 more than Mike? To solve this problem, we have number of books John has 4,93 - 2,63	Jerry had 8,756 pennies in his pig have now in his piggy bank? To solve this problem, let's subtra had in the piggy bank. 8, 7 5 6 7, 8 6 7 8 8 9 Mike owns a bookshop with a total bookshop with a total of 4,934 bomore than Mike? To solve this problem, we have to number of books John has 4, 9 3 4 2, 6 2 1	Jerry had 8,756 pennies in his piggy have now in his piggy bank? To solve this problem, let's subtract thad in the piggy bank. 8, 7 5 6 7, 8 6 7 88 9 Mike owns a bookshop with a total obookshop with a total of 4,934 book more than Mike? To solve this problem, we have to substant the piggy bank. 8, 7 5 6 7, 8 6 7 8 8 9 All the piggy bank. 8 9 3 4 - 2, 6 2 1 2, 3 1 3	Jerry had 8,756 pennies in his piggy ball have now in his piggy bank? To solve this problem, let's subtract the had in the piggy bank. 8, 7 5 6 - 7, 8 6 7 The 889 Mike owns a bookshop with a total of 2 bookshop with a total of 4,934 books. If more than Mike? To solve this problem, we have to subtranumber of books John has 4, 9 3 4 - 2, 6 2 1 2, 3 1 3	Jerry had 8,756 pennies in his piggy bank. have now in his piggy bank? To solve this problem, let's subtract the amount had in the piggy bank. 8, 7 5 6 7, 8 6 7 Theref 8 8 9 Mike owns a bookshop with a total of 2,622 bookshop with a total of 4,934 books. How more than Mike? To solve this problem, we have to subtract the number of books John has 4, 9 3 4 2, 6 2 1 2, 3 1 3	Jerry had 8,756 pennies in his piggy bank. He have now in his piggy bank? To solve this problem, let's subtract the amoun had in the piggy bank. 8, 7 5 6 7, 8 6 7 Therefore 88 9 Mike owns a bookshop with a total of 2,621 be bookshop with a total of 4,934 books. How more than Mike? To solve this problem, we have to subtract the number of books John has 4, 9 3 4 2, 6 2 1 2, 3 1 3	- 29,926 So, he har 39,800 Jerry had 8,756 pennies in his piggy bank. He spenave now in his piggy bank? To solve this problem, let's subtract the amount of had in the piggy bank. 8,756 - 7,867 Therefore, Je 889 Mike owns a bookshop with a total of 2,621 book bookshop with a total of 4,934 books. How many more than Mike? To solve this problem, we have to subtract the total number of books John has 4,934 - 2,621	Jerry had 8,756 pennies in his piggy bank. He spent have now in his piggy bank? To solve this problem, let's subtract the amount of penad in the piggy bank. 8, 7 5 6 7, 8 6 7 Therefore, Jerry 88 9 Mike owns a bookshop with a total of 2,621 books in bookshop with a total of 4,934 books. How many be more than Mike? To solve this problem, we have to subtract the total number of books John has 4, 9 3 4 2, 3 1 3	Jerry had 8,756 pennies in his piggy bank. He spent 7,8 have now in his piggy bank? To solve this problem, let's subtract the amount of pennie had in the piggy bank. 8, 7 5 6 7, 8 6 7 Therefore, Jerry has 88 9 Mike owns a bookshop with a total of 2,621 books in it. bookshop with a total of 4,934 books. How many book more than Mike? To solve this problem, we have to subtract the total number of books John has 4, 9 3 4 2, 6 2 1 2, 3 1 3	- 29,926 So, he harvested 39,39,800 Jerry had 8,756 pennies in his piggy bank. He spent 7,867. have now in his piggy bank? To solve this problem, let's subtract the amount of pennies he had in the piggy bank. 8,756 - 7,867 Therefore, Jerry has 885 889 Mike owns a bookshop with a total of 2,621 books in it. His bookshop with a total of 4,934 books. How many books do more than Mike? To solve this problem, we have to subtract the total number of books John has 4,934 - 2,621 2,313	- 29,926 So, he harvested 39,800 39,800 Jerry had 8,756 pennies in his piggy bank. He spent 7,867. Ho have now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent had in the piggy bank. 8,756 - 7,867 Therefore, Jerry has 889 per 889 Mike owns a bookshop with a total of 2,621 books in it. His frie bookshop with a total of 4,934 books. How many books does more than Mike? To solve this problem, we have to subtract the total number of benumber of books John has 4,934 - 2,621 2,313 Therefore, John has 2,313 more books in his book shop than Mike.	Jerry had 8,756 pennies in his piggy bank. He spent 7,867. How n have now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent had in the piggy bank. 8, 7 5 6 7, 8 6 7 Therefore, Jerry has 889 pennies bookshop with a total of 2,621 books in it. His friend bookshop with a total of 4,934 books. How many books does Jomore than Mike? To solve this problem, we have to subtract the total number of book number of books. John has 4, 9 3 4 2, 3 1 3 Therefore, John has 2,313 more books in his book shop than Mike.	- 29,926 So, he harvested 39,800 green 39,80	Jerry had 8,756 pennies in his piggy bank. He spent 7,867. How many phave now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent from that in the piggy bank. 8, 7 5 6 - 7, 8 6 7 Therefore, Jerry has 889 pennies in his bookshop with a total of 2,621 books in it. His friend John bookshop with a total of 4,934 books. How many books does John hav more than Mike? To solve this problem, we have to subtract the total number of books Mike number of books John has 4, 9 3 4 - 2, 6 2 1 2, 3 1 3 Therefore, John has 2,313 more books in his book shop than Mike.	Jerry had 8,756 pennies in his piggy bank. He spent 7,867. How many pennhave now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent from the had in the piggy bank. 8, 7 5 6 - 7, 8 6 7 Therefore, Jerry has 889 pennies in his piggy banks a total of 2,621 books in it. His friend John also bookshop with a total of 4,934 books. How many books does John have in more than Mike? To solve this problem, we have to subtract the total number of books Mike has number of books John has 4, 9 3 4 - 2, 6 2 1 2, 3 1 3 Therefore, John has 2,313 more books in his book shop than Mike.	- 2 9, 9 2 6 So, he harvested 39,800 green grapes. 3 9,800 Jerry had 8,756 pennies in his piggy bank. He spent 7,867. How many pennies have now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent from the total and in the piggy bank. 8, 7 5 6 - 7, 8 6 7 Therefore, Jerry has 889 pennies in his pigg 8 8 9 Mike owns a bookshop with a total of 2,621 books in it. His friend John also o bookshop with a total of 4,934 books. How many books does John have in homore than Mike? To solve this problem, we have to subtract the total number of books Mike has fronumber of books John has 4, 9 3 4 - 2, 6 2 1 2, 3 1 3 Therefore, John has 2,313 more books in his book shop than Mike.	Jerry had 8,756 pennies in his piggy bank. He spent 7,867. How many pennies dhave now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent from the total and in the piggy bank. 8, 7 5 6 7, 8 6 7 Therefore, Jerry has 889 pennies in his piggy books hop with a total of 4,934 books. How many books does John have in his knore than Mike? To solve this problem, we have to subtract the total number of books. Mike has from number of books. John has 4, 9 3 4 2, 3 1 3 Therefore, John has 2,313 more books in his book shop than Mike.	Jerry had 8,756 pennies in his piggy bank. He spent 7,867. How many pennies does have now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent from the total amount in the piggy bank. 8, 7 5 6 7, 8 6 7 Therefore, Jerry has 889 pennies in his piggy bank 8 8 9 Mike owns a bookshop with a total of 2,621 books in it. His friend John also owns a bookshop with a total of 4,934 books. How many books does John have in his boomore than Mike? To solve this problem, we have to subtract the total number of books Mike has from the number of books John has 4, 9 3 4 2, 3 1 3 Therefore, John has 2,313 more books in his book shop than Mike.	- 2 9, 9 2 6 So, he harvested 39,800 green grapes. 3 9, 8 0 0 Jerry had 8,756 pennies in his piggy bank. He spent 7,867. How many pennies does he have now in his piggy bank? To solve this problem, let's subtract the amount of pennies he spent from the total amount had in the piggy bank. 8, 7 5 6 - 7, 8 6 7 Therefore, Jerry has 889 pennies in his piggy bank now 88 9 Mike owns a bookshop with a total of 2,621 books in it. His friend John also owns a bookshop with a total of 4,934 books. How many books does John have in his booksh more than Mike? To solve this problem, we have to subtract the total number of books Mike has from the tot number of books John has 4, 9 3 4 - 2, 6 2 1 2, 3 1 3
