

Name: ..... Class: .....

Choose numbers with a particular quotient

Which numbers in each box make the following expressions true?

1.

32	10	15	8	16
----	----	----	---	----

$$\square \div \square = 4$$

2.

7	50	18	27	5	2
---	----	----	----	---	---

$$\square \div \square = 25$$

3.

99	5	41	87	12	29
----	---	----	----	----	----

$$\square \div \square = 3$$

4.

90	221	395	5	9	10	11
----	-----	-----	---	---	----	----

$$\square \div \square = 79$$

Choose numbers with a particular quotient

Which numbers in each box make the following expressions true?

1.

32

10

15

8

16

32

÷

8

= 4

Select the factors of 4 that divide to give 4

Factors that will give 4 as a quotient here are 32 and 8

2.

7

50

18

27

5

2

50

÷

2

= 25

3.

99

5

41

87

12

29

87

÷

29

= 3

4.

90

221

395

5

9

10

11

395

÷

5

= 79
