

Name: Class:

Classify numbers

1. What is the best way to classify - 100 ?

- ▶ Rational number, Whole number and Integer.
- ▶ Irrational number, Whole number and Real number.
- ▶ Rational number, Integer and Real number.

2. What is the best way to classify $\sqrt{7}$?

- ▶ Integer
- ▶ Irrational number
- ▶ Whole number

3. What is the best way to classify 0 ?

- ▶ Integer, Whole number
- ▶ Integer
- ▶ Rational number

Identify and name the different class to which these numbers belongs in the place provided.

fractions ; rational numbers ; integers ; whole numbers.

$-\left(\frac{1}{3}\right)$ → Fractions Rational numbers

$-\left(\frac{5}{1}\right)$ →

1,000 →

55.679 →
