## Subtraction word problem: Sums up to 5

In each case solve and answer in the spaces provided.

- Daniel found 5 toys in the house. He gave 2 to his junior brother. How many toys does Daniel have now ?

$$5 - 2 = 3$$

- There were 4 birds on the lawn in front of the house. 3 of them have flown away. How many birds are left ?

$$4 - 3 = 1$$

- Kevin had 5 green apples. He has just eaten 3. How many apples are left ?

$$5 - 3 = 2$$
