Subtraction word problem: Numbers up to 10

In each case solve and answer in the spaces provided.

- Naomie has 8 bunches of red roses. She gave 2 to her friend. How many bunches does she have now?

$$\boxed{8} - \boxed{2} = \boxed{6}$$

- Simon has 10 marble balls for a competition. He has been defeated and lost 6 marbles. How many does he have now?

$$\boxed{10} - \boxed{6} = \boxed{4}$$

- Mr. Auguste has 6 bulls. He sold 3 yesterday. How many does he have now?

$$\boxed{6} - \boxed{3} = \boxed{3}$$
